PRIMARY EXAMINER

REASONS FOR ALLOWANCE

1. This is an Examiner's statement of reasons for allowance. The closest prior art Ishikawa U.S. Pat. No. 6,628,817 discloses an inspection data signal analyzing system. Honjo Shinsuke et al JP 2001350677 discloses communication and inspecting system utilizing meta-information, communication monitoring and inspecting method. However, neither Honjo nor Ishikawa singularly or in combination discloses the recited feature:

As per claim 25 " assigning a grade indicative of the quality of the content of the preexisting independently created digital data as a function of the one or more predefined sets of criteria without user interaction, and marking the preexisting independently created digital data with the assigned grade without changing and without accessing the content of the preexisting independently created digital data and without user interaction, wherein the digital receiver without user interaction dynamically evaluates the marked grade to determine suitability for subsequent use of the preexisting independently created digital data without accessing the preexisting independently created digital data, whereby another digital receiver without user interaction can independently determine suitability from the marked grade for another subsequent use of the preexisting digital data without accessing the preexisting digital data".
